Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and desobstruent properties, procuring for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pal id complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE
is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

London, 26th.

Turko-Greek Question has assumed a new phase in consequence of formal proposals by Turkey in answer to the note of the Powers, notifying the resolutions of the Conference. On the side of Espiras Turkey proposes a frontier that will leave her Preveza, Jonina and Metzovo, and in exchange will give Greece Thessaly, with Larissa, which she first refused. It is probable these proposals will form the basis of a definite arrangement.

Lisbon, 26th.

Parliament rose to-day. Government will wait till next session before acting on the Laurenco Marques Treaty.

RAILWAY EXPROPRIATION

Buenos Aires has one railway belonging to English shareholders that is rapidly extending to the far South, it does a splendid traffic because well managed, pays the shareholders a handsome dividend, maintains the credit of the country in the London market, attracts the attention of large capitalists to the Plate, and in one word is a credit to the country, and this is the line—The Buenos Aires Great Southern Railway—which the new Government of Buenos Aires under Dr Dardo Roach talks of expropriating—in fact we learn that it is his chief political programme, and as there are many sound reasons for opposing such a measure, and nothing in its favor save a few complaints about high fares etc.; we trust the legislators who will be called to discuss the question will weigh well the great injury to the country which such a measure implies.

The Buenos Aires Great Southern Railway has cost what its shares represent; the shares are at 50 per cent premium, but that premium covers the constant repairs improvements etc. made in a long stretch of years since the opening of the line, and paid for out of the earnings of the road, as we apprehend the books of the Company will show. The present cost of the line therefore stands so—

Original stock.....	£'1,610,000
Present premium on shares 50½	805,000
Debenture 6½ stocks.....	767,267
Premium on same.....	168,798
Ayacucho extension.....	340,000
Premium.....	170,000
	£3,861,065

Supposing, for the sake of argument, that the Government of the Province of Buenos Aires could raise such a large sum as the above, it must necessarily be obvious to all that such capital would be infinitely better employed in making new railways to the 9 de Julio, Saladillo, Lincoln and Fort Gainza, districts which are now being rapidly settled upon, than to expropriate the Southern Railway, and thus to deprive the Province of such a large amount of foreign capital as is at present locked up in the concern.

The extension of this railway to Ayacucho was the cheapest, quickest and best executed railway extension ever made in this country, and if we leave our London friends to themselves, they will carry their railway to Bahia Blanca, which is to-day the most essential of all points to the development of this province. If, on the other hand, Dr Roach should succeed in expropriating this line, then we may all bid good bye to a railway to Bahia Blanca, since our children's children will not witness it, as is pretty clearly proved by the wretchedly slow extensions of the Western Railway, which is a Government line.

We for our part are not advocates of State railways; no doubt the Western Railway is well and economically managed, and the fares on the Southern are on a much higher scale, but on due representation by the Government, and now that the paper money is rapidly improving, we believe the fares and freights on the Southern Railway would be reduced by the home board; and it is far better for Dr Roach to use his influence in that direction than to attempt to raise in this market four millions sterling, which we consider not only impolitic but out of the question.

There are few countries that have given State Railways a greater trial that Belgium, the opinion therefore of M. Beaulieu, Prest. of the Belgian Society of Engineers, is to the point; he says—

The motives which induced the Belgian Government to build and purchase railroads, it is well known, were largely political; and besides, it was deemed prudent to prevent the German banks and French companies from obtaining control of the Grand Central Belge and the line from Brussels to the Luxemburg frontier. Mr Beaulieu believes there is no analogy between the post office and the railroad in this connection What Government can rightfully do in the one case it cannot rightfully do in the other. The former is for the use of everybody and upon the same conditions, Rates are necessarily uniform and steady. Discriminations are out of the question. In an organization for the sending of freight at State expense, however, he insists that "everything would be abnormal." The only responsible persons would be the statesmen in power. The Belgian roads are managed from an administrative and not a commercial point of view; and the consequence is, a loss of both time and money. The governmental management dictate to commerce and trade and treat their representatives simply as vassals, totally forgetting that the Government itself is but an agent of and for the public. Promptness of execution and clear-sighted views are lamentably wanting; no preparations are made for extraordinary demands on the capacities of the lines, and there is a general lack of that elasticity which characterizes ordinary commercial undertakings. The outcome of this State control in the best governed country in Europe, where the railway net is most complete, was an excess of expenditures over receipts in 1878 of 3,342,401 francs.

Perhaps the most important recent contribution to an elucidation of the vexed question, however, is an able article by Mr. Paixhaus in a leading French review. His ideas and arguments we translate substantially as follows:

"The railroad industry is the most vital to the interests of a country, as it connects them together: it is to commerce what the nervous organization is to the human body The great question to determine is, how much of this interest belongs to the State, as the supreme organ of the general weal, and what to the companies, which are so indispensable to industrial initiative and commercial liberty? There can be nothing more enervating nor injurious to trade than the intrusion of the State into the sphere of individual activity, The Orleans line has been the subject of much discussion before the Commission for the Purchase of Railways. One of the great reasons urged for the absorption of that line was that it competed with the State railroads. This in itself should be an argument against the State railroads. Another plea has been put forward in favor of purchase, namely, the unity and simplification of the railroad tariff which would result therefrom. But this is a more difficult subject than might at first sight appear. There are 4000 stations in France, and therefore 4000 distances to be calculated. Nothing could be more absurd than the idea of carrying every kind of merchandise on the same conditions. This scheme of State purchase of railroads is confined to the Continent; there is no agitation on the subject in England, the United States or Canada. The East Indian railways are guaranteed by the Government, and the Australian authorities have made advances for building roads, but these are exceptions to the general rule. Even in Europe, State railways constitute but one-sixth of the total mileage, and political and strategic reasons have chiefly influenced the policy of Government supervision. Bismarck's grand point has been political unity—for which uniformity of custom dues, uniform railroad systems, &c., was indispensable. The King of Bavaria, nevertheless, is on record as saying that there were three things which he would never sacrifice—his diplomatic service, military uniforms and the railroads. The number of railroad employes in Germany is now over 180,000, and will be 300,000 in another fifteen years. The railroads, when managed by the Prussian State, are controlled by Ministers long in power, while in France the average Ministry lasts only from fifteen to twenty months. The placing of the French railroads in Government hands would be the creation of an immense army of place hunters. Taking the Prussian deficit on the working of its railroads, the enhanced cost to France would be about 73,000,000 francs per annum. The working co-efficient now of the French State roads is 81 per cent; that of the new Orleans line, only 68 per cent. On this basis, it would be 143,000,000 francs. The present debt of France is 20 milliards, the completion of the new lines of communication will add another 6 milliards, and now the proposed purchase of the six large companies would increase the total debt to 40 milliards—the greatest ever known.

"M. de Freycinet had, at various times, expressed his grave apprehension of the State taking on such a burden as would be the purchase and working of the railroads. Besides, such a movement is State Socialism — the Government taking that which belongs to the individual; a disposition which will not stop at railways, but will ultimately include education, insurance, mutual aid and co-operative societies and the thousand and one forms of assistance. If there be any one industry which belongs by right to individual initiative, it is that of transport. The legitimate function of the railroads is to carry passengers and freight as safely and cheaply as possible—a business, which is essentially commercial. Now, State rhads will substitute another spirit for this commercial character of the carrying business and the substitution will be prejudicial to every interest involved.

"The French railroad employes are selected by the companies for their peculiar qualifications; but what will they be if the railroads are given over to political influence in a country of universal suffrage? As no objections can be made against the employes of the companies, attack will be directed against differential tariffs, etc. If arbitrary power is bad, and if differential tariffs are arbitrary in the hands of private companies, it would be infinitely worse in the hands of the State. The proportion of expenses to receihts, as shown by the railways when under private or State management, is as follows:

	Private. Per Ct.	State. Per Ct.
French (six large lines).....	47	
Belgium.....	53	67
Austria.....	59	63
Sweden.....	70	60
Germany.....	52	63

"The percentage for the Luxemburg lines increased from 54 to 75 when the road passed under State management. Finally, the State would be the most incompetent of all workers, for the simple reason that it is incompetent to make a good bargain in buying or to sell to the best advantage.

LOAN CORRESPONDENCE.

We give hereunder the correspondence between the National Minister of Finance and Dr. Pellegrini who represented one of the European firms that tendered for the Railway Loan of twelve millions pats. In spite of the very unnecessary and groundless hub-bub made about this matter by some of our colleagues, the letter of the National Finance Minister, at foot, will make it clear to every impartial mind, that the Government acted in the matter with the strictest justice and impartiality, while keeping the interests of the country exclusively in view.

Dr. Don Carlos Pellegrini,

My dear Sir,

My many occupations impeded an immediate answer to your favour of yesterday, which I duly acknowledge.

I am extremely sorry that your situation should be so critical, as regards the house you represent in the Loan offer, and that you should have published the antecedents of the case. I am sorry to think that the firm in question should literally interpret the sentiments of that letter, throwing little credit on the Government and much criticism on my proceedings in the matter. I will, therefore, give you a faithful description of the whole business, that you may transmit same to the firm you represent.

In the Cabinet Council of the 17th, when the President, Vice-President and all the Ministers were present, all the bids were taken into consideration. Amongst others was one which ran as follows:—"Mr. Cortinez: The bid of Brana Hnos. is at 80¾.—Pellegrini." In this council it was resolved to throw out all bids and to continue negotiations with the firm represented by Mr Rodolfo Heimendaul, offering to take the business at 82, free of all commission, stipulating a term meantime that the Government would not negotiate with any other firm. It was also resolved to keep matters from publicity to avoid difficulties and complications. I, therefore, drew up a proposal for Mr. Heimendahl, which he had to answer before the 25th at 11 a.m. On the 23rd Mr Heimendahl notified the assent of the firm in question. In a Cabinet Council ensuing, I gave the necessary explanations, and amongst other notes read the following, which you suppose I kept back:—

Dear Mr Cortinez

The Paris firm has extended the terms. I can make fresh proposals the day the Government wishes it. I await your reply to open negotiations again.

Your friend

C. Pellegrini.

B. Aires, March 19th 1881.

The result of the council was the conclusion of the business under the terms published. But I must now correct some statements in your letter. I have no copy of the letter I sent you on the 17th, which only notified you of the non-acceptance of your proposal: thus meeting the wish expressed in your note, thus conceived. "Messrs Brana Bros. maintain their proposal till 4 p.m., an answer would oblige, or notification of any resolution.

Your friend

C. Pellegrini.

B. Aires, March 17th.

If the letter should be accepted as any compromise on my part to notify you of the resolutions of the Government, I am happy to say that, that very night, in my house, you afforded me the opportunity of answering you,

In reply to your question if the Government would accept a proposal of 81 p. cent, I said that for the time being the Government would accept no proposals, and was negotiating under other convictions, which should be kept secret for the present; but in the eventuality of their non-acceptance I would notify you.

As matters turned out, there was evidently no necessity of notifying you of the results. As regards the efforts made against the proposal of your firm, I know nothing; I never heard anything to bear against the credit of the firm; on the contrary I was perfectly aware of its undoubted importance.

With these explanations you will acknowledge that the Government could not give your proposal the preference. I accept with honor all the responsibility of the matter.

I would much wish to know if, in view of this information, you will notify your report to the firm you represent.

I salute you

C. Cortinez.

General Moltke has published another letter in which he declares that war is the only rightful means for consolidating the prosperity, honour and independence of a country; but as Germany has secured her Unity by this means, she has now no need of war, but should always be prepared to defend herself.

The latest despatches from the Cape say that the reverses suffered by the British troops have given a great impulse to the anti-British agitation amongst the tribes in the Interior. The Boers have already raised several regiments of negroes. Meanwhile reinforcements are being rapidly sent from England, where preparations for a decisive campaign against the Boers and all aiding them are going on. It is announced that the Boers, on their side, are straining every nerve for a formidable resistance.

Dublin advices report the agitation as increasing all over Ireland. The brother of Lord Mountmorres has been shot, but the crime is attributed to private vengeance.

EDITOR'S TABLE.

Three steamers from Europe arrived yesterday at Montevideo—the Orenoque from Bordeaux, the Precurseur from same port, and the Itglia from Genoa. Barring a case of 'no steamer to-night,' the mails will be here to-day. The latest papers say that General Roberts was to leave England on the 5th inst.. with 6,000 men as reinforcements. The Orenoque's dates are to the 9th inst., and a telegram to the *Nacional* gives the following:—General Roberts takes proposals of peace to Natal, to make good the damages done to the Boers and give them Independence. Awful storms in North of England; seven railways blocked by snow. Peers voted for permanent occupation of Candahar Dublin and nine Irish counties placed under Coercion Law. People flying from Dublin. Mr. Dillon declared in Parliament that the oppression of the Irish people fully justified civil war: he was called to order by the Speaker. Dreadful explosion in an American coal mine: 88 miners buried. Garfield's inaugural speech much approved of; he condemned Mormonism. Mr Corbett, British Minister at Athens, appointed to Brazil. Rumour as to Queen of Spain being 'enceinte' is contradicted. Bismark says that war is certain between Greece and Turkey, unless the former gets Crete. The great battle at the Cape in which General Colley was killed was at Mount Majuba. British ran short of ammunition, and 400 were killed, the Boers having a good artillery. First sitting of Constantinople Conference on 5th. New French Loan was to be launched on St. Patrick's Day. Awful earth quake in Italy, at Casamicciola; another shock on 6th: people rushed into the Evangelical Church. Great republican feeling in Portugal; fights between the people and troops; very serious riots. All Legations and Consulates in Rio in mourning for three days for death of Emperor of Russia. Patti getting £480 PER NIGHT in Havannah. Baron Maua and family, Senor Otin, Spanish Minister, Colonel Viejobueno and Dn Lucio Lopez have arrived in Orenoque.

The old tune. Although the mails by the R.M.S. Douro and the Italian steamer Europa came up on Sunday, the 'mot d'ordre' at the G.P.O. yesterday morning was that they would not be delivered till 1.30 p.m. The G.P.O. is evidently getting old and feeble, when everything else in the country is getting young. It wants stimulants.

The election of Senators and Deputies, to fill vacancies in the Provincial Legislature, came off in the camp districts on Sunday. We believe everthing passed off quietly.

Sunday was rather a close, stuffy day, and there was nothing particular going on in town, except a fire in a cabinet-maker's in Calle Corrientes, which was speedily extinguished by the police and the people. Yesterday morning people awoke to find a delicious S.W. wind blowing and the temperature 15 degrees lower than on Sunday. It had rained heavily southwards. The great heat is over for this year.

Advices from Entre Rios say there will be but a poor 'faena' up there this year. The drought is so bad that no fat 'novillos' are to be had, and the saladeristas have presented a petition to the Legislature praying that the Law which prohibits the slaughter of cows may be suspended this year, so as to provide them with something to kill. It is to be hoped this petition will be 'no-hay-lugared.' Killing cows and mares is most stupid and ruinous work in a country like this.

The Gun Club opened its season at Maldonado on Sunday, and the shooting was rather good for the opening day.

On the Central North Railway the freight on goods will be collected, from April 1st, in gold, at 29 to the patacon, no matter what the Bolsa quotation may be.

A cricket match took place in Montevideo on the 25th—Mr R. Moor's *v.* Mr. D. J. Stokes' Eleven—and a capital match was the result, the former side winning by three runs. The match was chiefly interesting as some 'novices' took part in the game, and promise in time to prove a valuable acquisition to to the Club, notably Messrs. Nisbet, Bickerstaffe and C Jones—for Mr Moor's side. Mr Dixon played well for his score, whilst Mr Walker bowled in better form than we have seen him this year; in fact it proved too much for the batmen in first innings, but in 2nd innings Denny Stokes, who was playing in his best form, got hold of it, making several splendid hits; his 'daisy cutters' also proved most effectual.

From a letter received from the Far South we learn that our old friend and subscriber, Dr G A Humble, M.D., has again been appointed a member of the Municipality for Viedma, the new Capital of Patagonia, and elected Juez de Menores for that district.

The Cordoba papers say that Mr Brizuela paid 60,000 pats. into the Treasury of that province last week, to arrange the land question he had with its Government.

The *Capital* of Rosario says that the marriage market up there is tremendously lively, owing to the clause in the Enrolment Act which exempts married men from service in the National Guard. In San Lorenzo there is a panic amongst the bachelors, and youths of 18 have bestowed their hands, if not their hearts, on mature damsels who were past praying for, in a matrimonial sense, but for the thrice blessed clause referred to. Several widowers have again gone in for wedlock on the same principle as 'Sir Coutts,' viz., that ugly old women without teeth make the best wives. We hope they may all live happily.

The same paper announces the death of Mr Francis Davies, an employee of the Central Argentine Railway. All the employees of the line and many other friends followed his remains to the grave.

"A young man of 27 years of age, on the verge of being married, is anxious to meet with a gentleman of experience who will undertake to persuade him not to take the fatal step." We find the foregoing advertizement in a morning colleague; it may suit some of our readers.

It is now announced that the International (née Continental) Exhibition has been again, and finally, postponed till February 1882. Better say till the Greek Calends at once.

There is only one exhibitor (Sr Oneto) of 'fideos' at the Italian Exhibition, although there are 50 manufactories of the edible in this city. Mr. O, won a silver medal at the Paris Exhibition in 1878, so we suppose the other 'fideo' men were afraid to compete with him.

The promoters of the Italian Exhibition must have got their money back already. On Friday last there were 5000 visitors, and on Sunday more. There will be another grand concert on Thursday evening next; 'entrada' only $15 m/c. No pleasanter way of passing an evening could be devised than strolling through the Exhibition, while Rajneri's orchestra discourses eloquent music.

We feel much pleasure in saluting Mr Wright, manager of the London and River Plate Bank in Cordoba, who goes home on a well-earned vacation trip, after 19 years hard work in the service of the Bank, whose cradle he assisted in rocking here, then went to the Rosario branch for 6½ years, and finally has been manager for seven years in Cordoba, where his able direction has made the Bank most popular and increased its business. We wish Mr Wright a pleasant voyage home and safe return.

Political affairs in Banda Oriental are rapidly rising to 'rumpus' point, and it is quite possible that Latorre will be called in (or call himself in) to restore order before another two months are about, He is the only man strong enough for the place.

A Guatemala paper translates the appellation Orangemen, in a recent notice of Irish affairs, as 'naranjeros,' vendors of oranges. Literal, but inaccurate, as are a multitude of translations which follow that inflexible rule.

The dismantled hull of the Saturno had quite a number of visitors on Sunday. She lies just opposite the Water Works, and had there been a heavy sea on when she struck, it would have gone very hard indeed with the passengers.

An Italian named Victor Viale is now in Rosario. He was a fireman in the 'Garibaldi Bomberos' and was engaged in Chorillos, on the day of the great battle, with 24 others, in checking and extinguishing the fires caused by the Chilian shells, and he positively asserts that the Chilian troops took 17 of his companions to the Cemetery and there shot them in cold blood. We have rarely met with a case in which the swearing on both sides was so hard as in this 'massacre' business.

General Sarmiento was at the Southern Railway Athletic Sports on Friday last and enjoyed them immensely, especially the 'Tug of War,' which he applauded with hands and voice. The race for boys over 60 years of age did not come off, as the other competitors entered were afraid of our old collaborateur Dn Carlos Escurra, who always leaves the other 'niños' standing in this race. There were no entries for the Bicycle Race.

There was a terrific hurricane in San Juan on the 12th inst., destroying all the vines and putting all idea of a good wine yield this year out of the question. The maize crop was also greatly injured.

An Agricultural Exhibition will be held in Mendoza next year, weather and earthquakes permitting.

Dr Pizarro, Minister of Education, has refused the subvention asked for by the Escuela de Musica y Declamacion. There is quite enough music and a thousand times too much declamation going on, and the Minister will easily find some better way of employing the money asked for.

The President of the Republic returns from his visit to Mr Unzue's estancia to-day.

The Captain General of Ports intends laying down bell buoys in this and other frequented ports, to prevent accidents during fog, such as that which occurred last week to the Saturno.

A street-sweeping machine like those used in Paris and other European cities was tried in Calle Moreno between Bolivar and Peru on Friday last. The result was magnificent. The whole square was swept as clean as a ball-room in two minutes, although the engineer had stipulated for three minutes. With a dozen of these machines the whole city could be swept in two hours, and it is to be hoped that the Municipality will contrive to obtain means to set them to work. The present system of a few dozen peons pottering along leisurely with housebrooms is sublimely ridiculous and worse than useless; it is almost as laughable as the way in which the sumpts are 'cleaned,' Let Buenos Ayres have the sweeping-machines 'cuanto antes.'

President Roca has presented two very fine specimens of the lion the country to the zoological gardens in Palermo Park.

We strongly recommend our subscribers never to have their teeth drawn by their butcher, as for some reason or other the hands of the gentlemen who provide as with steaks, sirloins and scrags are not quite so deft with one's grinders as those of a first-class American dentist. The other day a young 'softy' of 19 went to his butcher and made a contract for the extraction of a double-tooth. The contractor took a huge pincers and tugged out two of the best teeth in his head, leaving the bad one where it was. Another unfortunate wight had a piece of his jaw torn out by the same eminent contractor, and has but faint hopes of ever being able to chew a beefsteak properly again. This enterprising butcher should be houled over the coals by the authorities. The wonder is he did not use his cleaver instead of a pincers in his attempts at dental surgery. After all, the duffers who submit their teeth to the manipulation of a 'carnicero' deserve very little pity.

The Department of Agriculture lately sent the Juez de Paz of Dolores some mulberry seed which his Worship duly distributed to the neighbours. When the plants began to show above ground there was general astonishment at their unusual appearance, and a short time longer showed that, if they had sown mulberry trees, they were destined to reap 'alfalfa'. A mistake of some gentleman in the Department,

Don Anthony Squally has applied for a patent for preserving hen and duck eggs to the end of time; he guarantees that 'huevos' preserved by his system will keep fresh till the Last Day. Few of us will have much appetite for eggs then, but by all means give Mr Squally his patent.

The Parana has inundated Rincones, Entre Rios, and the dwellers there have fled inward with their cattle. Great distress prevails amongst them, and a subscription is being raised for them in Gualeguaychu. River pirates are skimming about the inundated places, stealing whatever they can from, the abandoned dwellings and establishments.

Members of the Zingari C.C. are reminded of the general meeting which is to take place at the Scotch Church to-night at 8.

The *Pampa* announces that the whole Argentine squadron will soon be ordered to the Straits of Magellan. The Rosetti is loading with provisions, which will be stored at Port Desire and Santa Cruz, so that the war ships may not have to return here, or even to Patagones for them.

The Buenos Aires Government has acceded to the request of the Province of Cordoba for railway materials. Gov. Romero has asked the Legislature to give material gratis; a most worthy and charitable step.

Fairs are gradually spreading all over the country; Lobos is following in the wake of Chascomus, and promises to rival the great fairs at Bellinasloe. Exhibitions and cattle fairs are the surest sign of progress in the Provinces.

The dullness in the South Market is remarkable; there is scarcly anything doing, and both buyers and sellers stand all the day sitting on the bales of wool, smoking and chatting about the loan and politics. In the North Market a little more activity is noticed, but not much.

Many people were anxious to hear of the great Biandengue's auction by Messrs. Bullrich & Co., but the auctioneer arrived late in town and particulars were not at hand.

Messrs. Wisner and Chapsaurogue, in their important wheat circular, give the following—

"Arrival of the week—

	Wheat.	Flour.
	Qrs.	Brls.
Western Railway	6111	210
Southern Railway	900	—
Rivers	1376	3671
B. Oriental	212	—
	8599	3881

"Wheat—The arrivals of the week have been very limited, both from camp and rivers. Prices show a fresh rise. The small stock of good Costa wheat has already been exhausted, some lots fetching 215 per fanega; an offer of 220 per fanega was refused by one party who disposes of some excellent qualities. Of other kinds there remains little or nothing, owing to the paucity of arrivals. Everything is being sold directly to the millers. There is demand for Rosario wheat, which is immediately bought up on arrival.

"As regards Candeal wheat, it appears that the crop in the Interior is bad; a cargo arrived this week from the Banda Oriental, and it is said that several more will follow.

"The arrivals of flour have fallen off, but there is no decrease noted in the demand. Several important lots have been sold at 33 m/c. per arr. from Rivers. To-day 34 and 35 m/c are asked by holders. The millers here sell at 35 and 36, and find a steady market. No doubt the heavy rains will enable the camp millers to work now, and the present great demand on this market will fall off.

"The fresh maize is coming in abundantly, but it is too green yet to export.

"In flax there is nothing doing, as the article is exhausted.

At afterhours the gold market hardened and business was effected at 28.95, $150,000 being sold at that price, but the market subsequently fall back to its former position, of buyers 28.90, sellers 28.95.

The Bank discounted to-day six and a half millions currency.

The Nat. barque Manualita, bought by the National Government as a pontoon for Bahia Blanca, has been wrecked off that coast.

We have received a note from the U. States referring to the Great Helper Scheme to construct a railway running through the three Americas.

Two following shipments reported—

"At San Nicolas 10,000 novillo hides of 65 lbs. at 47 rls.

"From Saladero de Roca, 6,000 hides of 65 lbs. at 50 rls.

The drought in the Banda Oriental continues, and the estancieros on the other side of the river are considerably alarmed. It is reported that an English estanciero, who owns a large property, is shipping both cattle and sheep to this province. Rain at the present means more to the Banda Oriental than a fresh loan; certainly the shipment of animals is an eloquent statement of the condition of the camps in Uruguay.

Owing to the departure of General Lavalle and son to Europe, a change is impending in the command of the First Division of the Line. We hear that two countrymen, Oolone's Donovan and Fotheringham, will succeed the departing General; two better men could not be chosen.

It is really wonderful to witness the present impulse given to telegraphs, telephones, &c. A company has proposed to the Government to construct 400 kilometers of telegraphs in the North of the Republic for $6.60,000. The War Office is to be connected by telegraph with the Artillary Park and the Capitania. Meantime a telephone communication will unite the Ministry of the Interior with the Municipality and the Policia. A few years more and a complete net-work of wires will cover the city.

The important auction of lands belonging to the Province came off to-day; the lands put up for auction comprised the 18th Section of the Public Lands, covering 163,000 hectaras; the total sales amounted to $5,036,428 m/c.

Messrs G Gowland & Co., the well known comestible and hardware au tioneers, sold for $800,000 m/c. the property situated in the town of Magdalena, and which belonged to the Egue concurso.

There was much talk on 'Change referring to the failure of a well known house in this market that stopped payments on Saturday last.

Messrs Bollini Muro & Co. sold the following properties:—

14 lots of land in Calle Coronel, D. Carlos Aromales &c., at $12 m/c. per vara; buyers Tieldine 6 lots, Negris 1 lot, Novilla 1 lot, Reyzonizes 1 lot, Delucci 1 lot, Rate 1 lot, Podesta 2 lots, Codaygo 1 lot. These lots were sold three months ago for $5 6 rls. per vara, leaving to-day a magnificent profit to the sellers.

Messrs Baltar & Quesada sold yesterday the propiedad Calle Mejico No. 598 for $150,000, basis $140,000. Buyer D. Pedro B Alfaro.

In reference to launching of loans it looks like a coincidence, that the French Government should have issued its milliard of 3 o/o at the same figure as General Roca's Government. Criticism is certainly not spared in vituperating the simple way of transacting the loan, but then it must be borne in mind that we live in the reminiscences of previous loans, which netted to the Argentine Government less than the present one. There are many who think that syndicates of bankers will float the new bonds in the European markets at a higher rate than the existing ones.

Telegrams from Antwerp, dated 26th, state that there is more activity in the wool-market, and that the demand for the article has increased; prices, nevertheless, are unchanged. In the hide-market prices are firm.

The Captain of the Port has had a happy thought, when asking the War Office for buoys with bells; the lamentable case of the Saturno, no doubt, has given rise to the idea, and other reforms in the harbour will be most welcome: every sandbank and dangerous point should have one, and all can imagine the harmony of bells and waves when a fierce pampero is blowing.

At a special meeting of the Provincial Bank Board last week it was decided that a certain class of applications for discount must henceforward always stand over to the board day following that on presentation, with a view to give the Directors more time to find out all about the solvency of the applicant. Although there was no rule to this effect before, it has been pretty generally the custom, and it is not difficult to see the reason for the present new rule. We suppose we discharge a duty we owe to the Bank and to the market to state that within the last few weeks there has been much conversation on 'Change on some discounts which the board has recently thought fit to grant, and it is possible that in consequence of the talk in the market the new rule has been adopted. We have only to add that the eyes of the whole market are on the present Board, and that the greatest circumspection is necessary, since from one cause or other merchants think that the Board as at present constituted lacks the conservative element. We cannot dwell further on the matter; the market is undergoing great change, and the Provincial Bank will certainly have to face those changes, which will increase its stability and give it a better standing.

Mr Conde has left for Europe for the purpose of buying prize stock for this market. There are now three or four parties from here visiting the various stock breeding establishments in France, Germany and England, and sending out animals for sale by auction in this market.

We published the other day the renting of Mr Leath's estancia in the Nueve de Julio, 1½ league land, for $95,000 m/c per annum; the lease is a lesson, and shows what people can do in the camp. Mr Bath bought this land on credit in 1875 from Mr Neild for $300,000 m/c; the place has paid for itself, and now gives the owner a rental sufficient to live very comfortably in Wexford. The same business can be done over and over again every day in the week, if people know how to go about it.

A well known acopiador of wool in the North, who for the last few months was missing, has at last turned up, much to the satisfaction of his creditors.

The Contribucion Directa Tax in the city gave for the year 1879 $11,268,763, being over the amount estimated, and the patentes in the city gave same year $11,995,850, and the stamped paper in the city gave $17,278,325. This gives an income to the National Government of 40½ millions m/c. Surely on such a shewing it is not too much to ask the Nat Government to pay the unfortunate holders of Municipal Bonds their overdue coupons.

The Western Railway branch to Pergamino will now be pushed ahead vigorously, and Dr Dardo Roach's excursion to Arrecifes will be productive of good. We hear that more hands are to be employed, and the Bank will take the bills of Messrs Baring Bros. for £200,000, which that house advances to finish the works. The detailed estimates of this branch may interest many; we therefore give the figures—

Lujan to San Antonio de Areco, 62 kilom.

Arrecifes branch 62 kilom.	22,820,000
Pergamino branch 48 kilom.	19,362,355
Total 162 kilom.	60,888,353

The amount advanced by Messrs Baring Bros. and for which the Railway Board now draws on London is £200,000 stg., which is very nearly 50 per cent of the total cost of the branch in its full length to Pergamino. Dr. Roach says next year we run out to Pergamino; it is certainly about time. The delays attending this branch were really inexplicable.

On 31st Dec., 1879, the actual debt of the Province of B. Aires stood so—Foreign debt £2,825,945=$6.13,790,624. This debt is now taken over by the National Government and consequently no longer figures as debt of the Province. The internal debt stood on 31st of December, 1879, so—

Provincial Bonds (home debt)	108,413,121
Bonos Municipales	57,954,000
Empresito Popular	54,774,000
	221,141,121
Due on that day to the Bank $6.9,920,000	248,000,000
	$469,141,121

To the foregoing must be added Floating Debt, Bonos Provinciales, &c. We suppose on May 1st a clean statement will be given to the public of what the Province owes, and what became of all the money received for sales of Public Lands since December 1879. Aside from the taxes the Provincial Government of B. Aires had the following sources of revenue in 1879, and we suppose last year they gave even more—

	Millions.

BOLIVIA

CAUTION TO INTENDING EMIGRANTS TO BOLIVIA,

Tupiza, March 8th, 1881

To the Editor of the *Standard*.

Sir,

For want of a representative in this country to whom one can appeal, we address this letter to you, requesting that you will give it publicity in your columns.

The Sub-Prefect of this district of North-Chichas, appears to have taken to himself the attributes of a lawgiver, having named a Commission the day before yesterday of 2 persons, a Frenchman and a German, to enrol all the foreigners here, (who number amongst various nationalities about 30 souls) in the Guardia Nacional. The Argentine Consul, Dn Federico Uriburu, has protested for those of his country, but the others, who, without special instructions from the Minister of Foreign Affairs of the Argentine Republic, cannot be defended by the Argentine consul, find themselves in the predicament of going to jail, or being expelled from the country.

We desire to make these facts known through your columns, in order that any of our countrymen who may think of establishing themselves in this benighted country may know what to expect. It is but fair to state that the order emanates from the Sub-Prefect, and not from the Supreme Government, but as we are about ten days journey from La Paz, if one desires to appeal against these orders of a subaltern, he will either have to leave the country, or stay in jail until it pleases the Government to take into consideration his appeal.

Perhaps, by the aid of your valuable paper, and the ventilation which you ought to give the subject in your columns, the Minister of Foreign Affairs may see fit to order his Consul to take the foreigners here under his protection, as the only Consul here is the Argentine.

Various Englishmen

THE AUCTION OF 'CERRITO.'

To the Editor of the *Standard*.

Sir

In your article on the attempted auction of the Cerrito estancia you attribute its failure to a projected law increasing the tax on properties exceeding three leagues.

After communicating with the Minister of the Interior, the President of the Legislature, and several other leading politicians and law-makers of the province of Entre Rios, I am happy to inform you that one and all disclaim any previous knowledge of such proposed legislation.

By a perversity of fate the misleading article has been included in your Packet Edition, and thus is exposed to reproduction by the foreign press; probably to the great prejudice of this portion of the River Plate.

The reason of the non-success of the Cerrito auction was sufficiently obvious to have rendered superfluous the substitution of ingenious but fallacious arguments. The property was put up in 'one lot' and at an upset price of $f. 200,000. Buyers on conditions of such magnitude are not numerous in the Plate, 'et voila tout.'

Yours

Boone.

B. Aires, March 26th, 1881.

[Ed. Note.]—Our informant respecting the proposed law was the Minister of Entre Rios, who was down here last week. Entre Rios has no Minister of Interior.

Es precisamente de este ganado de donde se extrajeron las magnificas vacas que constituyen el conocido y acreditado tambo en Ramos Mejia, que siempre han estado servidas por toros puros de lo mejor en Buenos Ayres y que dan 22 a 24 cuartas de leche sin apurarlas.

En el rodeo que se vende hay gran cantidad de estas tamberas.

Se ve, pues, tomando su origen y la fecha (1862) que este ganado es clasificado de mestizo por su propietario, cuando sus cruzas las clasifican hoy de ¾ y ⅞.

La venta se hara por todo lo que pisa.

Los dias Miercoles y Sabados se parara rodeo, y habra en la Estacion Maipu (F.C. del Sud) un brack a 4 caballos, que en 2½ hora conducira a los a los interesados a visitar las haciendas hasta Mari Huincul.

Todos estos pobladores demuestran que aquellos campos son muy escelentes no solo para vacas, sino para ovejrs, pues hay alli un sin numero de majadas que han dado un brillante resultado.
